Cashew Fruits - down the memory lane!

Obviously, it reminds me of childhood days. We used to eat red/yellow fruits hanging in roadside trees. Though it was throat itching at times, we enjoyed it. 'Yellow fruits are less itchy'- we used to discuss among ourselves. Mom used to advise – eat cashew fruits with salt to avoid itching !

I knew one or two recipes of cashew fruit. But never tried them before. Cashew fruit is very rich in vitamin C. However large part of the production goes unutilized in rural areas and this prompted me to explore many recipes out of it. The intense smell of the fruit, which is unpleasant to many, was reduced in recipes and thus making it pleasant! I also considered unripened green fruits and cashew sprouts to develop some recipes. These are very rarely used in cooking. Finally I ended up with 25 recipes which are presented in this book.

My husband Dr. Mohan had contacted scientists of different cashew research stations spread across the country. They have all helped in translation and hence we could prepare the book in 11 languages. Mr. Naveen G.V. from nGV Naturals, Bangalore has nicely designed this e-book. Cashew fruits are supplied in time by ICAR- Directorate of Cashew Research, Puttur. I whole heartedly thank all of them.

The aim of this book- to increase household use of cashew fruit. If that happens, I will be more than happy!

Cashew Fruits: Neither on the shelves nor in households !!

Cashew kernels are relished by everyone. However same can not be said about cashew fruits. The ratio of cashew nut to fruit is about 1:10 and huge quantity of fruits goes waste every season across the country. Fenny is the most famous liquor prepared out of cashew fruits in Goa. Though some states have now permitted to prepare alcohol out of cashew fruits, its usage for this purpose is yet to gear up in a big way.

Many attempts have been carried out to prepare jam, jelly, ready to serve drink, syrup, nector, pickle, cashew apple powder based cookies and fruit bars, and such other products. Unfortunately, it is difficult find them on the super market shelves. This is due to 1) lack of proper advertisement regarding its nutritive value (high vitamin c content compared to lemon and presence of other beneficial components) 2) consumer preference for products of other fruits such as mango, grape etc.

Surprisingly however, in cashew growing areas, usage of cashew fruits at the household level is also very meagre. In other parts of the country, its usage is almost unknown. To ameliorate this situation, tasty recipes are essential and the author has been successful in her efforts.

I have tasted all these recipes and hence I can confidently say these are worth trying at your home too. You can also add new recipes to this list.

That is the sole purpose of this book !!
